## August 2020 Competition: "Dominant Colour" (Due 11:59pm 14<sup>th</sup> July)

**TPS Guidelines:** "The key colour is the main colour in an image. Often, the key colour in an image is that  
which is the most dominant. Allowing one colour to dominate can lead to a powerful image. This is  
stronger when a primary colour (**red, blue, or yellow**) is the **dominant colour**."

The colour can be but does not have to be 100% of the image.

Images can be created in natural light, filtered studio light, a filter on the lens or manipulated in  
Photoshop. These can also be called monochromatic."

Please supply a photo you are not happy with and would like to see improved.
