October 2020 Competition: "At Night" (Due 11:59pm 8th September)

TPS Guidelines: "Ideally this set subject encompasses any image taken **at night** – the aim is to illustrate some aspect of that time when we are in darkness – after the sun has set and there are no effects of twilight on the night sky. There are many interesting subjects that can be shot at night using long exposure – use your imagination to capture the activity of the night..."

September Field Day

The Garden of Earthly Delights.

There will be no Carnival of Flowers to speak of next month, but there will be a Garden of Earthly Delights.

Three nymphs will trip through a sea of white daisies and play peek-a-boo from a forest of white flowering May bush.

You may find Alice in Wonderland in her tree house, a charming young lady suspended from a burlesque hoop under the branch of a towering rain forest tree, a dark eyed girl looking very Italiane on a Vespa, a slinky young lass vamping it up behind a bar, or (quick costume change), a country girl in a backdrop of rusting iron and rustic furniture.

For those who missed our shoot at Blue Mountain Heights in June, this is your chance.

Pencil in Saturday September 19, from 3-5.30 pm now. Indicate your interest either on the Facebook post <https://www.facebook.com/groups/TPSClosedGroup/> asap, as there are only 30 places. Cost is \$25 p.p. <https://toowoomba.myphotoclub.com.au/september-19-field-day/>

Did I mention there will be pizza? Not mine this time I'm sorry, we aren't up to restaurant numbers.

After you register, I will send you a flier if you are a TPS financial member because I will have your email. If you aren't a member you will need to email me.

When you get the flier, it will tell you how to pay. You need to pay the Iron Lady, Treasurer Val, in advance to secure your place.

November 2020 Competition: "Conceptual" (Due 11:59pm 13th October)

TPS Guidelines: "Conceptual photography illustrates an idea. The subject of conceptual photography is often staged to represent an idea. The 'concept' is both 'preconceived' and, if successful, understandable in the completed image. It is most often seen in advertising where the picture may reiterate a headline or catchphrase that accompanies it."

A huge thank you to Margaret Kebble and Tryg Helander for their demonstrations in Lightroom and Photoshop. The skills they have shown and demonstrated to us via Zoom can be used not only for taking our processing to the next level, but can also be utilised when processing creative photography and the Set Subject – Conceptual, in November.

Creative Photography

In the coming months there will be:

- An Information session
- A skills night, and
- A workshop

On creative photography for those who are interested in pursuing this genre, as we are looking to introduce this category in 2021.
