We are back in De Molay House

COVID SAFE REGULATIONS FOR DE MOLAY HOUSE

The maximum number of people in the hall is 66.

The kitchen and back area of the hall is still off limits. The back door will be closed.

There will be no food provided. You can bring your own cup and supper if you wish but you will need to take this home with you without washing it. (If you wish to buy, the Parkhouse restaurant is next door.)

Entrance and exit will be through the front door.

Upon entrance, you will need to observe the Covid health signs and make a declaration regarding those directives which includes your name, phone, email or street address and signature. Your temperature will be taken and recorded. (These records must be kept for 56 days.) Hand sanitizer will be provided upon entrance.

At the hall entrance, you will need to bring the exact change of \$2, if possible. [This amount covers the supplies required for Covid regulations.]

You will need to collect your own chair and place it 2 meters from the next person unless there is a family relationship. 2 METERS IS 2 ARM LENGTHS APART. You are responsible **after use** for the **cleaning** of the chair and placing it back where it came from. Bacterial wipes will be provided.

All tables and other surfaces used INCLUDING THE PERMANENT SEATS on the night will need to be wiped down and sprayed. This includes the toilet areas as well.

- The toilet areas to be cleaned are the seats, buttons, door handles, sinks, taps, etc. [Glen 20 will be provided.]
- The storage area surfaces will also need to be cleaned including the door handle.

Disposable gloves will also be provided.

CLEAN AND STAY SAFE

Vice President	Roberta Edwards
Secretary	Geni Russ
Treasurer	Val Shield
Member's Representatives	Travis Lord
	Jo-Ann Aspromourgus

Thank you to Geni Russ
who has kindly volunteered to be our new Secretary

April 2021 Competition: "Light Painting"

(Due: 11:59pm 9th March)

Light painting, painting with light, light drawing, or light art performance photography are terms that describe photographic techniques of moving a light source while taking a long exposure photograph, either to illuminate a subject or space, or to shine light at the camera to 'draw', or by moving the camera itself during exposure of light sources. Practiced since the 1880s, the technique is used for both scientific and artistic purposes, as well as in commercial photography.

May 2021 Competition: "Farm Machinery"

(Due: 11:59pm 13th April)

Farm machinery, mechanical devices, including tractors and implements, used in farming to save labour. Farm machines include a great variety of devices with a wide range of complexity: from simple hand-held implements used since prehistoric times to the complex harvesters of modern mechanized agriculture. Your examples may be currently in use or heritage pieces that have made an important contribution to our agricultural history and development.
